

VAISHNAVI ATUL PATIL

SENIOR DATA ANALYST — BI & ANALYTICS

Sunnyvale, CA (Open to Remote) | (917) 443-5751 | vaishnaviatulpatil999@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Senior Data Analyst / Business Intelligence professional with 5+ years turning complex datasets into business decisions using **SQL**, **Python**, **Power BI**, and cloud platforms (Azure, AWS) across energy, healthcare, and fintech. Strong in data modeling, KPI & metric definition, forecasting, predictive modeling, and experimentation (A/B testing), with deep contact-center / workforce analytics (FCR, AHT, service level, CSAT) and a track record of stakeholder management and data storytelling at the VP/executive level. Currently building LLM-powered analytics agents to automate insight generation. Track record of **\$200K+ in operational savings** and **70+ hours of manual reporting** eliminated monthly.

PROFESSIONAL EXPERIENCE

Baltimore Gas & Electric (Exelon)

MD, USA · Remote (CA) | Jul 2024 – Present

Data Analyst – BI & Analytics

Python, SQL, Power BI (DAX), Azure ML Studio, SQL Server, Databricks, NICE IEX WFM, Power Automate, LLMs, GitHub Copilot

- Own the enterprise analytics strategy for Customer Operations, designing KPI frameworks and an executive **Power BI** dashboard aggregating 28 metrics for the VP of Customer Operations and senior stakeholders — saving **~\$150K annualized** by eliminating manual reporting for 24 data stewards and moving leadership from monthly reviews to weekly operational pivots.
- Architected call-volume and AHT **predictive** forecasting models in **Azure ML Studio** (SQL Server + **NICE IEX WFM** data via Databricks) at interval/intraday level to optimize staffing, capacity, occupancy, and shrinkage — reducing late staffing decisions **40%** and saving **\$50K annually** in overtime and contractor costs.
- Designed **DAX-driven Power BI** dashboards tracking FCR, AHT, service level, schedule adherence, CSAT/NPS, and capacity — cutting time-to-identify underperforming agents **from 5+ days to same-day** and enabling real-time coaching.
- Engineered a unified Telephony and CC&B dataset through **data modeling** in **Python** (Pandas, NumPy) and **SQL** (CTEs, window functions), achieving an **86% match rate** across **2M+ records** and improving **data quality** across 12+ operational reports.
- Built an **LLM-powered insights agent** (Python, OpenAI APIs, SQL) that ingests post-call agent notes and surfaces real-time operational trends, letting leadership query floor-level performance in natural language.
- Leverage **GitHub Copilot** and Power Automate to accelerate SQL optimization and automate Python ETL workflows, cutting development time **30%** (**~\$35K** in annual productivity gains).

Med-IQ, Inc.

MD, USA | Jul 2023 – Mar 2024

Data Analyst

Python, SQL, Looker, Epic EHR, Apache NiFi, Git, Excel

- Analyzed **500K+ patient-level EHR and Census records** from **Epic EHR** using Python and SQL, applying **Chi-Square and ANOVA** ($p < 0.05$) to uncover statistically significant health disparities, informing program redesign across 3 therapeutic areas.
- Built automated preprocessing pipelines in Python (Pandas, NumPy) and designed interactive **Looker** dashboards for equity and outcome trends, cutting data prep **from 8 hours to under 2 hours** and reducing ad-hoc requests by **35%** (**~15 fewer analyst hours weekly**).
- Optimized ETL workflows using **Apache NiFi** and SQL, cutting pipeline runtime **30%** and accelerating dataset delivery **from 3 days to under 1 day**.

CognivAI Solutions

India | Apr 2019 – Dec 2021

Data Analyst

Python (Matplotlib), SQL (PostgreSQL), Tableau, AWS, APIs, Logistic Regression

- Ingested and validated **16M+ transactional records** across APIs, credit bureaus, and partner systems using **PostgreSQL** and Python, driving a **15% uplift in credit-scoring accuracy** and directly impacting **\$2M+ in lending decisions**.
- Built **logistic regression and decision-tree models** in Python for risk stratification, reducing default rates **18%** across a 50K+ account portfolio and saving **~\$500K in annual credit losses**.
- Designed real-time **Tableau** dashboards deployed on **AWS** for credit-risk KPI monitoring, reducing reporting lag **from 48 hours to under 4 hours** and enabling same-day risk intervention.

PROJECTS

E-Commerce Customer Retention & Funnel Analytics Pipeline

Snowflake · dbt · Python · Streamlit

- Built an end-to-end product analytics pipeline using **Snowflake** and **dbt** (ELT + data modeling), transforming **285M e-commerce events** into cohort retention, funnel conversion, and customer LTV segmentation across a 3-layer architecture (staging → intermediate → marts).
- Identified a **23% cart-to-checkout drop-off** and found the **top 20% of customers drove 72% of revenue**, informing targeted retention campaigns and checkout optimization.

TECHNICAL SKILLS

Languages & Querying: SQL, Python (Pandas, NumPy, Matplotlib), R

Business Intelligence & Visualization: Power BI (DAX), Tableau, Looker, Streamlit, Data Visualization, Advanced Excel (Pivot Tables, Power Query)

Cloud & Data Platforms: Azure (ML Studio, Blob Storage), AWS, Databricks, Snowflake, dbt, SQL Server, PostgreSQL, Data Modeling, ETL/ELT, Data Warehousing

Analytics & Statistics: Statistical Analysis, KPI & Metric Definition, Experimentation (A/B Testing), Hypothesis Testing, Forecasting (Time-Series), Predictive Modeling, Funnel & Cohort Analysis, Segmentation, Feature Engineering

Business & Stakeholder: Stakeholder Management, Requirements Gathering, Data Storytelling, Data Quality, Executive Reporting, Mentoring & Enablement

Contact-Center / Workforce: NICE IEX WFM, Call-Volume & AHT Forecasting, Capacity & Staffing, Service Level, FCR, AHT, Shrinkage, Occupancy, Schedule Adherence, CSAT, NPS

AI & Machine Learning: LLMs, RAG, Prompt Engineering, GitHub Copilot, Logistic Regression, Decision Trees, Gradient Boosting

Tools: Git, Jira, Power Automate

EDUCATION

MBA, Applied AI in Business — Westcliff University | In Progress

M.S. Information Systems, Data Science Specialization — University of Maryland, Baltimore County | GPA 3.9/4.0

B.Tech. Electronics & Telecommunication — Savitribai Phule Pune University (VIIT) | GPA 3.9/4.0
